THE NATIONAL NURSERIES

TERMS—CASH ON DELIVERY. No payment is asked in advance but we expect customers to meet our deliverymen on receipt of the stock and settle their accounts at that time.

WE PAY THE FREIGHT or express charges and make no charge for packing or boxing.

This list cancels all previous lists and quotations and is subject to change.

SHIPPING SEASONS are controlled by climatic conditions rather than by calendar dates, for which reason we are unable to name dates of shipment. Some years, an "early fall" with cool days and frosty nights, brings early maturity to our products, enabling us to dig and ship in the latter part of October, but in the following year a "late fall" may force these digging and shipping operations well into November. Similarly, an "early spring" will permit digging and shipping in late March, while a "late spring" may retard these operations several weeks.

Nursery stock cannot be successfully handled until it has completed its growth in the fall nor until frost leaves the ground in the spring; weather being the controlling factor, not the calendar.

THE PLANTING SEASON is not regulated by any definite date, nor by the state of vegetation at the locality of the planter, but by the condition of the trees and plants when received. Parties south of us may receive and plant their stock some weeks after the season has opened, as our goods are in perfect, dormant condition on delivery.

OUR DELIVERY AGENTS are supplied with printed notification cards which will be mailed to customers immediately on the arrival of the shipment. This will enable customers to call promptly and receive their stock while it is in perfect condition for transplanting.

LAWRENCE, KANSAS

REPLACING STOCK THAT FAILS TO GROW The living of trees and plants, after delivery to customers in good condition, depends almost entirely on conditions of soil, weather and after care, all of which are beyond our control.

We help to share the customer's loss, however, by offering to replace at one-half of the original purchase price, all trees, shrubs, plants and vines that fail to grow, provided the original order is paid promptly when offered for delivery, and the claim for replacement is made on or before July first following the planting; such claim to be accompanied by the purchaser's duplicate copy of the order, together with remittance to cover one-half of the original purchase price.

A FEW REQUESTS IN RELATION TO TAKING ORDERS

Agents must look up the financial standing of all customers. Guard against doubtful orders. Do not waste time with people who are not in the habit of meeting their local obligations promptly, or people who are not financially responsible.

Build up compact deliveries by working your territory thoroughly.

Fill out the orders plainly and correctly. Consult the sample order blank often and be sure that the items ordered, the price for each item and the total are correct before you hand the order to customer for signature.

The Carbon Paper enclosed with the outfit will enable you to make out a duplicate order for the customer at the same time you are writing the original. Never overlook this, as it is important that customers have an exact copy of their orders for future reference.

SEND THE ORIGINAL ORDER TO US and leave the duplicate or carbon copy with the customer.

THE NATIONAL NURSERIES

Spring and Fall Orders must be written on separate blanks.

Rewrite the name of the customer on the line indicated for that purpose.

SMALL ORDERS-Because of the increased cost of land, labor, implements, packing material, etc., there is little profit on orders amounting to less than \$8.00 or \$10.00, but as an accommodation to customers we will accept orders as small as \$5.00.

Married Women's Names. Very often our lady customers tell us that they did not receive their notice of delivery. This is usually because so many married women do not sign their names uniformly. Ask married women to always give you the names of their husbands, thus: Mrs. James S. Smith, not Mrs. Mary Smith or Mrs. J. S. Smith. Explain, if necessary, that we desire this so they will get their notice of delivery promptly.

QUANTITY RATES

Where stock is listed "per 10", five or more may be sold at the **TEN** rate.

Where "dozen" rate is given, six or more may be sold at the **DOZEN** rate.

Twenty-five or more at **HUNDRED** rate.

Two hundred fifty or more at **THOUSAND** rate.

Customer may select as many varieties as desired of the same class of stock, provided the price for all varieties selected is the same, as in Apple, Peach, Cherry, etc.

Where the price differs on varieties, as with Grapes, the quantity rate will only apply on varieties listed at the same price.

Important Notice

Confine all sales to varieties in this
list, which permits of a generous
selection of best kinds suitable for
all territory.

We have no varieties to offer except
the kinds mentioned in this Price List.

If you don't find it in this price book,
don't sell it.

LAWRENCE, KANSAS

ORNAMENTAL TREES

All First-Class in Size and Quality

Note 1.—The size mentioned after each variety is that considered proper for first class trees suitable for transplanting. The size varies according to the habit of growth of the varieties mentioned, as, of course some trees when fully grown, are smaller than others, but equally as good.

Note 2.—We divide the ornamental trees into two classes: those suitable for street planting (Class A), those suitable for lawns (Class B). Those that can be used for either are marked (A and B).

	Each	Per 10
Ash, American.....6-8 ft. (A)	\$1.50	\$14.50
Birch, Cut Leaf.....6-8 ft. (B)	4.50	
Black Locust.....6-8 ft. (A)	1.50	14.50

Wistaria, Purple.....	1.00	9.50

ORNAMENTAL SHRUBS

No lawn or yard, whether large or small, is either complete, attractive or homelike without a certain amount or flowering shrubs.

Properly arranged they in no way encroach upon the lawn. They not only add beauty and adornment, but at the same time can be used as screens to cover unsightly objects or fences, and break the foundation line of the house. They are indispensable, besides lending a cheerful homelike effect. A few dollars spent in

THE NATIONAL NURSERIES

shrubs will often add more value to a property than hundreds of dollars spent in other ways.

When the size is mentioned after upright shrubs, it is such as we consider proper for first class plants, suitable for transplanting. The size varies according to the habit of growth of the varieties mentioned, as, of course some plants when fully grown are smaller than others, but equally as good.

Our Shrubs are Clean and Thrifty, Strictly First Class

PEONIES

No flowers exceed the Peonies in popularity, and none are more easily grown. They are seldom attacked by insects or disease, and are perfectly hardy, requiring no covering in the severest weather. They thrive in all kinds of soil and flourish in a rich deep loam.

All plants offered are strong divisions with 3 eyes or more, number one in every way.

THE NATIONAL NURSERIES

PEONIES—Cont.

A LIST OF GOOD NAMED VARIETIES

Early White

Festiva Maxima. Very large. Pure white flowers with some blood-red stains in center. \$1.00 each.

Mid-Season White

Queen Victoria (Whitleyii). Blush, becoming white. \$1.00 each.

Late White

Marie Lemoine. Large, compact, fragrant. Ivory white. \$1.25 each.

Early Pink

Edulis Superba. Large, beautiful rose pink, well formed. \$1.00 each.

Mid-Season Pink

Mons. Mallett. Large, delicate flesh pink. \$1.00 each.

Late Pink

Grandiflora. Light rose, of very large size. A splendid variety. \$1.25 each.

Perfection. Pale shell pink, very fine. \$1.25 each.

Mid-Season Red

Francois Ortegat. Large deep crimson. \$1.00 each.

Felix Crousse. Large, compact. Deep rose red. Fragrant. Free bloomer. \$2.00 each.

Jacqueminot. Large, the red of a Gen. Jacq. rose. \$1.00 each.

Late Red

Grand Duke Anastaiá. Deep red, very double. \$1.00 each.

Jupiter. Large, deep purple. \$1.00 each.

LAWRENCE, KANSAS

PERENNIAL PHLOX

Strong Field Grown Stock

Price 75c each, \$8.00

A choice list of varieties—

BRIDESMAID, white with large crimson center.

FANTOME, deep lavender, edged and shaded with white, dwarf.

FRAULEIN G. VON LASSBURG, pure white, immense panicles.

ISABEY, salmon-pink.

LOTHAIR, bright crimson.

PECHEUR d' ISLAND, lavender-cerise.

RYNSTROM, a lively shade of rose-pink, very large.

SUNSET, dark, rosy-pink.

COLLECTION—One strong plant of each of the above varieties, 8 plants in all for \$5.00

ROSES—TWO YEAR OLD

Field Grown

Nothing that we can say can add to the popularity of this most beautiful of flowers. Those who appreciate the beauty of nature prize roses above all things else in the ornamental line. While nearly all desire and perhaps make an effort to have an abundance of them in their season, yet very many fail; and the failure to succeed is usually due to planting inferior bushes, thousands of which are sent out over the country every year at very low prices. Our roses cost more than the weak, puny hot-house plants referred to, yet the results show that we give our customers as much for their money as any firm in the country. Our bushes are grown out of doors, in ordinary soil, and are as hardy and vigorous as it is possible to make them.

THE NATIONAL NURSERIES

CLIMBING ROSES, HARDY

\$1.25 each, \$12.00 per 10.

Climbing American Beauty, deep pink to crimson.

Crimson Rambler, bright crimson.

Dorothy Perkins, beautiful shell pink.

Excelsa (Red Dorothy Perkins) new. Holds foliage better than Crimson Rambler. Unquestionably the best double red rambler.

Flower of Fairfield (Everblooming Crimson Rambler).

Tausendschoen (Thousand Beauties) colors of every shade from white to a deep pink.

White Rambler.

Yellow Rambler.

HYBRID PERPETUALS—HARDY

Those marked (x) bloom but once each season. The balance are perpetual bloomers.

Price \$1.50 each, \$14.50 per 10.

Alfred Colomb, brilliant crimson.

American Beauty, deep pink, shaded with carmine

Anne de Diesbach, pink.

Baby Rambler Red.

Baby Rambler White.

Baby Rambler Yellow.

Baby Dorothy Perkins, pink.

Clio, a beautiful pink.

Earl of Dufferin, velvety crimson.

Fisher Holmes, fine red.

Frau Karl Druschki, (Snow Queen). the most beautiful white rose grown.

Gen. Jacqueminot, brilliant crimson.

Gruss an Teplitz, dark rich crimson.

Kaiserin Augusta Victoria. Delicate creamy white, exquisite buds. Very prolific bloomer.

Killarney, pink.

La France, pink.

Madam Caroline Testout. Immense, large, clear pink flowers, full and double. Beautiful buds.

LAWRENCE, KANSAS

ORNAMENTAL HEDGING

	Per 100	Per 1000
Barberry, Thunberg's, 12-18 in	\$50.00	
Privet, California, 18-24 in.....	25.00	
Privet, Amoor River, 18-24 in.....	35.00	

Privet is sold only in multiples of 25 each. No order accepted for less than 25 plants.

THE NATIONAL NURSERIES

We recommend the AMOOR RIVER PRIVET, because of its **extreme** hardiness.

Privet and Barberry should be planted one foot apart in the row, requiring 100 plants for every 100 feet of hedge row.

THUNBERG'S BARBERRY makes the best hedge where no trimming is desired. The foliage turns to a riot of brilliant colors at frost time, and its graceful drooping branches are then covered with small red berries. Hardy everywhere.

TREE ROSES

Do not book orders for Tree Roses. We are unable to supply them.

EVERGREENS

WE HAVE DISCONTINUED THE SALE OF EVERGREENS

They cost more to grow than most people are willing to pay for them.

Very few planters have any success in transplanting Evergreens, resulting in much dissatisfaction and loss to our customers.

NATIONAL BRAND trees and plants represent the highest standard in quality and service. Grown by experienced propagators and packed in the most approved manner for shipment, we are in position to guarantee delivery of our products in perfect condition.

SUITABLE DISTANCE FOR PLANTING

Apples	30 to 40 feet apart each way
Standard Pears and Cherries	20 feet apart each way
Plums, Peaches and Apricots	16 to 18 feet apart each way
Dwarf Pears and Quinces	10 to 12 feet apart each way
Grapes	rows of 10 to 16 feet apart; 7 to 10 feet in rows
Currants and Gooseberries	4 feet apart
Raspberries and Blackberries	3 to 4 by 5 to 7 feet
Strawberries, for field culture	1 by 3 to 3½ feet
Strawberries, for garden culture	1 to 2 feet apart

NUMBER OF TREES OR PLANTS TO THE ACRE

40 feet apart each way	28	10 feet apart each way	435
30 feet apart each way	48	8 feet apart each way	680
20 feet apart each way	110	6 feet apart each way	1210
18 feet apart each way	135	5 feet apart each way	1745
15 feet apart each way	205	4 feet apart each way	2725
12 feet apart each way	300	3 feet apart each way	4840

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.
